Highlight of the Quarter  
On November 15th, the Southeast Region of the Florida Public Archaeology Network hosted its first Cemetery Resource Training Program (CRPT). This training was a great success due to the collaborative efforts of our office, Sarah Miller (NE-FPAN) and Friederike Mittner (City of West Palm Beach Development Services Department Planner). The class was filled to capacity with a variety of public service employees and private citizens. Individuals from Miami-Dade, Broward, Palm Beach, and Martin Counties were in attendance. Due to the strong local interest in this training, we are in negotiations to provide the CRPT program this summer in Key West.

Progress on Work Plan Objectives

Public Outreach
