September 20th, 5:30 pm
**Forensic Anthropology: How the Dead Died** – A look at how forensic anthropology helps solve crimes and determine “cause of death” through the analysis of human skeletal remains. We’ll explore the vital role trauma analysis plays in forensics and how forensic anthropologists assist law enforcement in solving homicides.

October 18th, 5:30 pm
**Chasing Bones: An Archaeologist’s Pursuit of Skeletons** - Travel with Dr. Wentz from Florida, through Europe, and into the Caribbean as she recounts her experiences learning how to analyze human remains to better understand the cultures from which they came.

November 15th, 5:30 pm
**Exploring Ancient Florida** - Millions of years ago, the peninsula that would become Florida broke from the west coast of Africa. Since then, its landscape has gone from an African-like savannah to a tropical paradise. Ancient mega-fauna that once roamed the forests and grasslands disappeared as humans arrived. Come see what Florida was like for the earliest Native Americans.

December 6th, 5:30 pm
**Life and Death at Windover: Excavations of a 7,000-year-old Pond Cemetery** – Explore one of the most ancient, well-preserved archaeological sites in North America. The 7,000-year-old Windover archaeological site was a pond used for the interment of the dead and produced over 160 individuals whose analyses have provided insight into the life and health of people during Florida’s Archaic period.
