JUNE 29, 2013
9:00 - 10:00 A.M.

Why did ancient Floridians build large mound complexes thousands of years ago? What has archaeology taught us about these sites? How come some are still standing and others are gone? Come find out by joining the Florida Public Archaeology Network and Heritage Park & Cultural Center for an urban archaeological hiking tour of some ancient Native American mounds in downtown Fort Walton Beach! We will talk about the excavations of these sites and efforts to preserve and protect them.
