Let's Move Outside, administered by the Department of Interior, was created to get kids and families to take advantage of America’s great outdoors—which abound in every city, town and community.

Let’s Move! is a comprehensive initiative, launched by the First Lady Michelle Obama, dedicated to solving the problem of obesity within a generation, so that children born today will grow up healthier and able to pursue their dreams.

Join us for a bicycling tour at Gulf Islands National Seashore as part of the Let’s Move Outside Initiative! Participants will rendezvous at Fort Pickens Museum at 9 AM where a park ranger and archaeologist will meet the group at the auditorium for a talk followed by a tour and bike ride of the Florida National Scenic Trail (approximately 4 miles). Participants are responsible for their own transportation and park entrance fee ($8 per vehicle). We will visit archaeological sites along the trail ride and learn about archaeology, history and ecology. Bring plenty of water, healthy snacks, sunscreen, sunglasses, your bicycle and helmet! Afterwards, participants can caravan out to the Destination Archaeology Resource Center for a tour of the museum exhibit “A Roadtrip Through Florida Archaeology.”
